

SeatsPlus[®]

PRACTICAL RELIABLE QUALITY

ALUMINIUM OUTDOOR FURNITURE

EDITION 3

PRODUCT CATALOGUE

Welcome

Seats Plus

The range that caters for anywhere people want to sit comfortably and relax – playgrounds, school ovals, gardens and parks. Enjoy the flexibility the Seats Plus range can offer – place seats or tables informally taking advantage of shade or a pleasing view, or group them formally to maximise the numbers that can be seated in a given area. In any situation, they are an attractive and low maintenance seating solution that will last for years.

Smooth & User Friendly

The range of seating and tables is lightweight and easy to install therefore offering you substantial savings in installation costs. All seats have rounded edges and protective end caps eliminating any potentially dangerous sharp edges.

Vandal Resistant and Long Life

The Seats Plus range creates new standards in durability. The benches and tables are vandal resistant and will not mark clothing. The seating is extremely long lasting – and is particularly suited to areas near swimming pools and seaside areas where seating made of other material quickly deteriorates.

Quality

The Seats Plus promise is - quality. You can be assured that whatever the style – our range will not disappoint. You are purchasing the best the market has to offer. The attractive anodised aluminium finish requires minimal maintenance. Aluminium will not stain, crack, warp, rust or splinter, like some other seating materials.

Delivery

Our years of experience in forwarding goods to locations throughout Australia means your goods will arrive at your door in the same condition they left us – We guarantee it!

Free Advice & Quotations

Our experienced Sales Team will assist you in choosing the right product to suit your requirements. Obligation free.
